

# HOSPICE MEMORY ARCHIVING

presented by

**HOSPICE MEMORY ARCHIVING** was created by AfterTalk to Document, Preserve and Share your loved one's legacy.

So often there is so much left to say. Many times what is left to say doesn't get preserved or shared.

Visit AfterTalk's **HOSPICE MEMORY ARCHIVING**. This is your Private Place to create a secure and confidential archive for your family and friends.

Upload videos, preserve a moment, share your photos of today, share a conversation, write a letter, share with those that cannot be present.

What does your loved one want others to know today and for the future?

Go to **AFTERTALK.COM** then click on **HOSPICE MEMORY ARCHIVING** on the homepage menu.

**Start your Album of Caring today!**
